EDUCATION

***Master of Science in Business Analytics*,** Rady School of Management 08/2025 - 12/2026
University of California, San Diego, CA GPA: 3.84/4.0
Relative Courses: Project Management, Customer Analytics, Marketing Analytics

Bachelor of Arts in Literature, Minor in Finance 09/2021 - 06/2025
Fudan University, Shanghai, China GPA:3.51/4.0

EXPERIENCE

Business Analyst (Capstone), Thermo Fisher Scientific San Diego, CA 02/2026 - Present

- Developed a supply chain risk early-flagging framework via Python-SQL workflows to identify key drivers of OTTP% misses, leveraging query-sourced order, inventory, ATP, and backlog trends across SKUs
- Partnered with cross-functional business stakeholders to validate root-cause indicators, translate insights into operational recommendations and deploy the solution in Databricks for scalable decision support

Digital Marketing Intern, Checkit Analytics San Diego, CA 02/2026 - Present
An AI-driven fintech startup developing investment LLM agents integrate structured financial data with valuation modules

- Developed a cross-channel marketing machine learning framework by wrangling data using Python, identifying top-performing content on views, engagement, and subscriber conversion
- Built BI-style analyses to segment user behavior and identify high-performing content drivers
- Accelerated growth strategy optimization by leveraging vibe coding with Claude API and RAG-based insights, improving sample usability by 30% and reducing retraining cycles by 23% for faster stakeholder-ready reporting

***Marketing Analyst Intern*,** Fudan University AI^3 Institute Shanghai, China 04/2025 - 06/2025
Collaborated with Koubei, Alibaba Group's local E-commerce platform, providing demand analytics for offline merchants

- Co-built a merchant-level traffic forecasting framework using customer log data (~1M records, 2,000 merchants) to inform promotion timing, inventory, and staffing decisions, reducing an estimated 15% operational costs
- Translated quantitative model outputs into business insights by segmenting merchants and identifying growth opportunities across regions, categories, and time windows
- Collaborated cross-functionally to support experimental campaigns including city-level promotion timing and inventory readiness, evaluating marketing effectiveness by traffic uplift, conversion rate, and GMV

***Consultant Intern*,** S&P Global Shanghai, China 05/2024 - 11/2024
Mobility Group, specializing in consumer insights, analytics and brand strategy for East Asia's electric vehicles sector

- Conducted 10+ data-driven market positioning studies on EV sector, covering OEM product strategies, platform roadmaps and demand outlook, delivering insights via PowerPoint and Tableau dashboards
- Used SQL-based ad hoc analysis to maintain and validate recurring competitive EV intelligence datasets, performing reconciliation against client-provided data across reporting cycles and writing new-launch reports for manager
- Aggregated and transformed powertrain external data (50K+ records) into standardized ESG metrics by Python, and collaborated cross-functionally with global teams to support a market assessment database for research initiatives

***FP&A Intern*,** East West Bank Shanghai, China 11/2023 - 03/2024
A U.S.-based commercial bank with expertise in bridging financial services between the U.S. and China

- Maintained Asset-Liability Committee reports and Excel frameworks to track monthly accounting trends, providing directors with performance reports in PPT
- Tracked budget execution, cost ratios, and loan KPIs by unit using Excel pivot tables, creating dynamic visualizations to help VPs interpret spending patterns
